

Pokka Ace Selects Pronto

Pokka Ace moves into the new millennium with SL Information System and PRONTO Enterprise Management System.

SL Information System, announced the signing of a contract with Pokka Ace (M) Sdn Bhd for the purchase of PRONTO Enterprise Management System, a leading Enterprise Resources Planning solution worldwide. SL Information System is the exclusive local partner of PRONTO Software Pty. Ltd, the principal and developer of PRONTO Enterprise Management System.

Pokka Ace (M) Sdn. Bhd. is a joint venture company between Lam Soon Group and Pokka Group. The company is primarily involved in the manufacturing of beverage packaging material.

The contract worth over MYR 280,000 will span over 6 months and aim to radically streamline and increase efficiency levels of Pokka Ace's business processes by implementing PRONTO Enterprise Management System. The PRONTO Enterprise Management System suite of solutions to be implemented in Pokka Ace includes solutions for Manufacturing, Financial Accounting, Procurement, Inventory Management and Customer Order Processing.

Mr. Tony Lim, the managing director of Pokka Ace commented that the ease of use was a key criterion of the evaluation process. "PRONTO fit the criterion perfectly. Our users were very impressed with the ease of use of the entire system."

"Our customers, mostly foreign MNC's are very demanding when it comes to fulfillment and product quality. Utilizing ICT is a means towards ensuring Pokka Ace keep pace with customers expectations." Said Mr. Lim. "We intend to use ICT as a means to counter the effects of the current economic downturn. This strategy will augur well for our company as we seek to a build a sound and resilient business infrastructure that will take us into the new millennium."

"SL Information System and PRONTO was certainly a best fit for us in terms of their knowledge, commitment and innovativeness. The PRONTO Enterprise Management System will form the backbone for our foray into the world of e-Business in the very near future. We are very excited to have formed this partnership as we envision to have SL Information as our enterprise solution partner that will assist with our company's growth plans." Added Mr. Tony Lim.

"We are extremely pleased to have formed a partnership with Pokka Ace. This is continued testament of SL Information System's capabilities for serving Malaysian companies such as Pokka Ace." said Mr. Chee Heng Tong, Chairman of SL Information Systems Sdn. Bhd. "Today, PRONTO Enterprise Management System being used by more than 100 companies in Malaysia, of all sizes to support their mission critical enterprises. Our experienced consultants in handling implementation of ERP systems for Malaysian companies are unparalleled. We have managed to fine-tune our implementation cycle to ensure 100% success and we have our satisfied customers to testify to that." added Mr. Chee.

"The PRONTO Enterprise Management System, coupled with support from SL Information System has been extremely successful in fulfilling the information technology needs of the business community in Malaysia, simply because its application software and quality services enables the implementation of business solutions easily and speedily at a competitive cost and as a result a quick return on investment. PRONTO Enterprise Management System can be utilized not only by manufacturers of industrial products but also for consumer product companies, as well as large chains of retail outlets." Mr. Chee commented. [Contact SL Info](#)
